SmarTire to Present at Sensors Expo & Conference

Richmond, British Columbia, Canada, June 1, 2006 -- SmarTire Systems Inc. (OTC Bulletin Board: SMTR), a developer and marketer of proprietary advanced wireless sensing and control systems, announced today that the company has been invited to present at the Sensors Expo, a part of the Sensors Expo & Conference being held in Rosemont, Ill., on Tuesday, June 6.

Dave Warkentin, vice president of sales and marketing of SmarTire, said, "Due to SmarTire's ongoing developments with key vehicle manufacturers and sensing partners, we have been invited to participate as a presenter at this important conference, which is the leading forum on sensing technologies and solutions. This is an excellent opportunity for SmarTire to increase our exposure with major manufacturers and discuss how the company's SmartWave™ platform offers unique solutions for commercial and industrial vehicles."

SmarTire will be presenting at 2:30 p.m. on June 6. The conference, billed as the World's Leading Forum on Sensing Technologies & Solutions, is being held from June 5-7 at the Donald E. Stevens Convention Center. For the conference program and additional information, visit http://www.sensorsexpo.com/sensors2006/v42/index.cvn?id=10185&p_navID=403.

About The Sensors Expo & Conference

Sensors Expo & Conference is the only industry event in North America exclusively focusing on sensors and sensor-integrated systems. The expo hall brings together the largest showcase of sensing technologies and systems for attendees to evaluate and make informed decisions. Information about the event can be found at <http://www.sensorsexpo.com>.

About SmarTire Systems Inc.

SmarTire develops and markets proprietary advanced wireless sensing and control systems

worldwide under the SmartWave trademark. The company has developed numerous patent-protected wireless technologies and advanced tire monitoring solutions since it was founded in 1987. The company's proprietary SmartWave platform provides a foundation for the addition of multiple wireless sensing and control applications. The initial product release on the SmartWave platform is SmartWave TPMS, which leverages on the company's background and knowledge in tire monitoring solutions. SmarTire has offices in North America and Europe.
